DETAILED ACTION

Oath/Declaration

1. The declaration filed on Jan. 16, 2001 is acceptable.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "32", "33" and "34".
Correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 10-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "a primary eyeglass frame having...temporal members connected at spaced locations to said primary frame" (claim 10, lines 2-3) is unclear. Does the applicant mean by --temporal members connected at spaced locations to said holding frame--? The phrases "the secondary frame" (claim 13, line 3; claim 15, line 3) and "said secondary frame" (claim 14, lines 1-2) have no antecedent basis. The phrase "said primary frame means" (claim 22, line 4) has no antecedent basis.

The remaining claims are dependent upon the above rejected base claim and thus inherit the deficiency thereof.

Claim Rejections - 35 USC § 102

Art Unit: 2873

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

6. Claims 1,4,7,8 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Zelman (6,139,142).

The limitations in claims 1,4,7,8 are shown in Zelman's Fig. 1-3.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 2,3,5,6,7-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zelman in view of Masumaga (5,431,506).

Zelman discloses the claimed invention, but does not disclose at least one portion of one of the primary eyeglass frame and the auxiliary eyeglass frame comprising of a shape memory alloy.

At least one portion of the eyeglass frame being made of a shape memory alloy is commonly known in the art as taught by Masumaga, for example, for the purposes of a pair of eyeglasses with shape memory. The materials of a shape memory alloy such as NiTi or CuAlBe are known in the art.

Art Unit: 2873

It would have been obvious at the time the invention was made to a person having ordinary skill in this art to modify the Zelman device by forming at least one portion of the eyeglass frame with a shape memory alloy in light of Masumaga's teaching for the same purpose as the applicant does.
